LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Data Computer Communication William Stallings

This is the worst textbook I have had in my entire academic career. The information is poorly organized and incomplete. The end-of-chapter questions reference topics that have not been discussed. This book is so bad I have had to control the urge to find where William Stallings works and get him fired.
