And we don't like doing a bunch of work to find stocks that take months to only move 10%. So after years of research, we put together the best of the best of what we've learned into one checklist. Like I said, this checklist will not give you 100% winners. That's not how the stock market works. You're always going to have losers.

## Bookmark File PDF Explosive Stock Trading

Based on this formula, stocks that return a value of 20 to 30 are very explosive and are usually best for swing trading, especially when they are liquid (easily tradeable for individual and professional investors alike). Equities with readings around 40 are average, while above 60 is pretty slow. The higher the number, the slower the stock.
